## SBI Group's Management Philosophy

Sound Ethical Values	We shall undertake judgments on actions based not only whether they conform to the law or profit the company, but also whether they are socially equitable.
Financial Innovator	We will transcend traditional methods and bring financial innovations to the forefront of the financial industry, utilizing opportunities provided by the powerful price-destruction forces of the Internet and developing financial services that further enhance benefits for customers.
New Industry Creator	We will work to become the leader in creating and cultivating leading industries of the 21st century.
Self-Evolution	We will continue to be a company that evolves of its own volition by forming an organization that flexibly adapts to changes in the operating environment and incorporates corporate "Ingenuity" and "Self-transformation" as part of its organizational DNA.
Social Responsibility	We will ensure that each company in the SBI Group recognizes its social responsibilities as a member of society and carries out its social and economic responsibilities to all stakeholders, while contributing to the betterment of society.

## **SBI Group's Corporate Vision**

(Formulated in July 2005)

The SBI Group makes a clear distinction between its "management philosophy" and "corporate vision." We regard our management philosophy as long-term and universal values to which we aspire and that this philosophy should not be easily altered because of a change in top management or shifts in the market. On the other hand, our "corporate vision" concretely describes how the Company sees its desired corporate organization in the future and therefore must be realistic and attainable. In the current age of rapid change, a corporate vision is of a medium-term nature.
