I. BASIS OF PRESENTATION

The Consolidated Financial Statements of SBI Holdings, Inc. (the "Company") and its consolidated subsidiaries (hereinafter referred to as the "Group") were prepared in accordance with the accounting principles generally accepted in Japan ("JGAAP") and were presented by reference to the "Rules Governing Term, Form and Preparation of Consolidated Financial Statements" (Finance Ministerial Order the 28th, 1976, which is hereinafter referred to as the "Consolidated Financial Statements Rule"). The Consolidated Financial Statements of the Group have been prepared on the historical cost basis except for certain financial instruments such as certain investments and derivatives, which are stated at fair value, the details of which are listed below.

The Consolidated Financial Statements are presented in Japanese Yen ("Yen" or "¥").

II. SIGNIFICANT ACCOUNTING POLICIES

1. Accounting policies

(1) Scope of consolidation and application of the equity method

(a) Under the control or influence concept, those companies in which the Group, directly or indirectly, is able to exercise control are consolidated, and those companies over which the Group has the ability to exercise significant influence are accounted for using the equity method.

(b) All significant intercompany balances and transactions have been eliminated in consolidation. All material unrealized profit or loss resulting from intercompany transactions is eliminated.

(c) Basis for exclusion from scope of consolidation

(i) Small size entities of which total assets, sales, and proportional share of net income and retained earnings are considered to be immaterial are excluded from consolidation. Investments in partnerships which are classified as subsidiaries under Practical Issues Task Force ("PITF") No. 20—"Practical Solution on Application of Control," issued on 8 September 2006, are excluded from consolidation as the effect of consolidation may be misleading to investors, in accordance with the item (ii) of Article 5 (1) of the Consolidated Financial Statements Rule.

(ii) Venture capital investments are excluded from the scope of consolidation since the purpose of investments are not for exercising control but to foster the development of venture capital portfolios.

(d) Basis for not applying the equity method

(i) Small size entities of which proportional share of net income and retained earnings are considered to be immaterial individually and collectively are not accounted for using the equity method.

(ii) Venture capital investments are not accounted for using the equity method since the purpose of investments are not for exercising significant influence but to foster the development of venture capital portfolios.

(e) Consolidated financial statements are prepared based on the financial statements of each reporting entity and adjustments are made when their year end dates are different over 3 months.

(2) Valuation method of significant assets

(a) Trading instruments

Trading instruments, which are held for the purpose of earning capital gains in the near term, are reported at fair value, with the related unrealized gains and losses included in income.

(b) Available-for-sale securities (consist of investment securities and operational investment securities other than investments in funds), which are not classified as trading instruments:

(i) Listed securities

Listed securities are measured at fair value, with fair value gains and losses, net of applicable taxes, reported as "unrealized gains (losses) on available-for-sales securities," a separate component of net assets. The cost of securities sold is determined based on the moving average cost method.

(ii) Unlisted securities

Unlisted securities are principally stated at cost less impairment, determined by the moving average cost method. However, unlisted available-for-sale securities held by certain overseas subsidiaries adopting International Financial Reporting Standards are measured at fair value.

(c) Investments in funds

For the investments in funds other than those included in the scope of consolidation, the Company's proportionate share in the net assets of the funds is calculated based on the funds' annual financial statements or interim financial statements and is presented as "Operational investment securities" (Current assets) or "Investment securities" (Non-current assets).

(d) Derivative contracts

Derivative contracts are measured at fair value.

(e) Real estate inventories

Real estate inventories are measured at the lower of cost or net realizable value.

(3) Depreciation method of depreciable assets

(a) Property and equipment

Property and equipment are stated at cost less accumulated depreciation. Depreciation of property and equipment by the Company and its consolidated subsidiaries is computed using the declining-balance method over the estimated useful lives of assets while the straight-line method is applied to buildings acquired after 1 April 1998. The range of useful lives is principally from 5 to 50 years for buildings, and from 4 to 20 years for furniture and fixtures. Most overseas consolidated subsidiaries apply the straight-line method. Leased assets are depreciated by the straight-line method over the lease terms with a residual value of zero.

(b) Land

Land is stated at cost less impairment.

(c) Intangible assets

(i) Software used for internal purposes is amortized using the straight-line method over the estimated useful life of the software (5 years).

(ii) Software for sale is amortized using the straight-line method over the estimated saleable period of the software, which is 3 years or less.

(iii) Leased assets are depreciated by using the straight-line method over the lease terms with a residual value of zero.

(4) Recognition and measurement of significant provisions and allowances

(a) Allowance for investment losses

Allowance for investment losses for operational investment securities and investment securities are provided based on the estimated losses of the investments and the financial condition of the investees.

(b) Allowance for doubtful accounts

Allowance for doubtful accounts is provided based on the Group's past credit loss experience and an evaluation of the recoverability of the outstanding receivables including notes and accounts receivable-trade, operational loans receivable, loans on margin transactions and other loans receivable.

(c) Provision for bonuses

The Group provided provisions for bonuses to employees based on the estimation of the current year portion of future payments.

(d) Employees' retirement benefits

The Group recorded liabilities for employees' retirement benefits based on the projected benefit obligations and plan assets at the balance sheet date. The simplified method was used and under such method, the liabilities were recognized and measured by assuming all the employees voluntarily retired at the end of the year.

(e) Statutory reserve for securities transactions liabilities/financial products transactions

Pursuant to Article 46–5 of the Financial Instruments and Exchange Act, certain consolidated subsidiaries provide statutory reserve against possible losses resulting from execution errors related to securities business transactions. The amount is calculated in accordance with Article 175 of the "Cabinet Office Ordinance concerning Financial Instruments Business."

(f) Statutory reserve for price fluctuation

The Group provides statutory reserve against possible losses resulting from stock price fluctuations in accordance with Article 115 of the Insurance Business Act.

(5) Recognition for net sales and cost of sales

Net sales and cost of sales

The Group's net sales primarily consist of fees from funds, revenue from operational investment securities, revenue from real estate business, and revenue from securities transactions. The costs of sales principally consist of the cost of operational investment securities, the related provision of allowance for investment losses, and cost of real estate business.

(a) Revenue and cost of operational investment securities

Revenue from operational investment securities includes all of the revenue which is related to or generated by operational investment securities and securities held by funds. Cost of operational investment securities consists of the carrying value on the sale of operational investment securities and securities held by funds, and the write-down of operational investment securities and securities held by funds.

(b) Fees from funds

Fees from funds consist of establishment fees for fund organization, management fees, and success fees from funds which are not within the scope of consolidation and managed by the Group. Management fees from funds are recognized over the period of the fund management agreement. Establishment fees and success fees from funds are recognized when those revenue amounts are determined and the services are provided.

(c) Revenue from construction projects

When the total construction revenue, total construction costs and the stage of completion of the contract can be reliably measured at the balance sheet date, the percentage-of-completion method is applied. The stage of completion is assumed to be the portion of the project's costs incurred to the balance sheet date divided by total estimated costs, "cost-to-cost method." If the outcome of a construction contract cannot be reliably estimated at the balance sheet date, the completed contract method is applied.

(d) Revenue from securities transactions

Revenue from securities transactions primarily consists of brokerage commissions from securities transactions, fees from underwriting activities and offerings of securities for initial public offerings, and fees for placements and sales of securities.

(e) Revenue from finance lease transactions

Revenue and cost of finance lease transactions are recognized when payments are received.

(f) Financial charges and cost of funding

Financial charges and cost of funding, which consist of interest expense for margin trading transactions and costs from repurchase agreement transactions, etc. which are related to the investment banking businesses, are recorded as cost of sales. As for certain consolidated subsidiaries, interest expense other than financial charges is classified as interests related to operating assets (e.g. leases receivable and lease investment assets, etc.) or to non-operating assets. Interest expense (cost of funding) related to operating assets is classified as cost of sales. During the development of a project, interest expense related to long-term and large-scale real estate development is included in the cost of the real estate inventories.

(6) Translations of significant assets and liabilities denominated in foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into Japanese Yen using the exchange rates at the balance sheet date, and the translation adjustment is recognized as foreign exchange gains or losses. The balance sheets of the consolidated foreign subsidiaries are translated into Japanese Yen using their exchange rate as at the balance sheet date except for net assets, which are translated at the historical rates. Revenue and expense accounts of consolidated foreign subsidiaries are translated into Japanese Yen using the average exchange rate of the year. Differences arising from such translation are shown as "Foreign currency translation adjustments," as a separate component under "Net assets" except for the portion pertaining to the minority shareholders, which is included under "Minority interests" as a separate component under "Net assets."

(7) Accounting for significant lease transactions

In March 2007, the Accounting Standards Board of Japan ("ASBJ") issued ASBJ Statement No. 13, "Accounting Standard for Lease Transactions," which revised the previous accounting standard for lease transactions issued in June 1993. The revised accounting standard for lease transactions was effective for fiscal years beginning on or after 1 April 2008.

(a) Lessee

ASBJ Statement No. 13 requires that all finance lease transactions be capitalized to recognize leased assets and lease obligations in the balance sheet. In addition, leases which existed at the transition date and did not transfer ownership of the leased assets to the lessee continue to be accounted for as operating lease transactions with certain "as if capitalized" information disclosed in the notes to the lessee's financial information.

The Group continues to account for leases which existed at the transition date that did not transfer ownership of the leased assets to the lessee as operating lease transactions.

(b) Lessor

ASBJ statement No. 13 requires that all finance leases be recognized as leases receivable, and that all finance leases that are deemed not to transfer ownership of the assets leased to other parties under operating leases be recognized as lease investment assets. For the finance leases which existed at the transition date and did not transfer ownership of the assets leased to other parties under operating leases, the book value of the leased assets (after deducting accumulated depreciation) at the transition date is used as the beginning value of the lease investment assets.

The Group adopted ASBJ statement No. 13 on 1 April 2008. Leases receivable and lease investment assets are stated at cost less accumulated depreciation. Depreciation is computed by using the straight-line method over the useful life with a residual value of zero.

(8) Accounting for significant hedging transactions

(a) Accounting for hedges

The Group applies deferred hedge accounting when certain criteria are met. Foreign currency forward contracts are used to hedge foreign currency exposures in the Group. Receivables, payables and investment securities denominated in foreign currencies are translated at the contracted rates if the forward contracts are qualified for hedge accounting. Interest rate swaps, which are qualified for hedge accounting and met the specific matching criteria, are not revaluated at fair market value. The differential paid or received under the swap agreements is recognized and included in interest expense or income.

(b) Hedging instruments and hedged item

(i) Hedging instruments—foreign currency forward contracts
Hedged items—foreign currency denominated receivables and payables and investment securities

(ii) Hedging instruments—interest rate swap contracts
Hedged items—loans and bonds payables

(c) Hedging policy

(i) For foreign currency-denominated transactions, the foreign currency forward contracts are used to hedge foreign currency exposures in the Group.

(ii) For interest expense on borrowing, interest rate swap contracts are utilized to mitigate the volatility of interest rates.

(d) Assessment of effectiveness between the hedging instrument and the hedged item

(i) The Group does not assess the hedge effectiveness of foreign currency forward contracts which qualify for hedge accounting and meet specific matching criteria.

(ii) The Group assesses hedge effectiveness by comparing the cumulative changes in the fair value of the hedged items and the hedging instruments during the period from commencement of hedging to the point of assessing effectiveness, based on changes in both amount and others. The Group does not assess the hedge effectiveness of interest rate swaps which qualify for hedge accounting and meet specific matching criteria.

(9) Accounting for amortization of goodwill

Goodwill is amortized using the straight-line method to allocate the cost over the expected beneficial period, or over 20 years if the beneficial period could not be reasonably estimated. However, goodwill could be recognized as an expense as incurred if the amount is immaterial.

(10) Cash and cash equivalents stated in the consolidated statement of cash flows

Cash and cash equivalents stated in the consolidated statement of cash flows are cash and deposits or short-term investment securities that are readily convertible into cash, and are not exposed to significant risk of changes in value, all of which will mature or become due within three months from the date of acquisition.

2. Other significant accounting policies for consolidated financial statements

(1) Business combination

For the period beginning on 1 April 2010:

In December 2008, the ASBJ issued a revised accounting standard for business combinations, "Accounting Standard for Business Combinations" (ASBJ Statement No. 21 issued on 26 December 2008), "Accounting Standard for Consolidated Financial Statements" (ASBJ Statement No. 22 issued on 26 December 2008), "Partial amendments to Accounting Standard for Research and Development Costs" (ASBJ Statement No. 23 issued on 26 December 2008), "Revised Accounting Standard for Business Divestitures" (ASBJ Statement No. 7 (Revised 2008) issued on 26 December 2008), "Revised Accounting Standard for Equity Method of Accounting for Investments" (ASBJ Statement No. 16 (Revised 2008) released on 26 December 2008) and "Revised Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures" (ASBJ Guidance No. 10 (Revised 2008) issued on 26 December 2008), hereinafter referred to as "revised standards." The revised standards were effective for the business combinations transactions undertaken on or after 1 April 2010 and are applied prospectively.

Major accounting changes under the revised accounting standards are as follows:

(i) The previous accounting standard for business combinations allowed companies to apply the pooling of interests method of accounting when certain specific criteria were met such that the business combination was essentially regarded as a uniting of interests. The revised standards require accounting for such business combinations by the purchase method and the pooling of interests method of accounting is no longer allowed.

(ii) The previous accounting standard accounted for the research and development costs to be charged to income as incurred. Under the revised standards, an in-process research and development (IPR&D) acquired by a business combination is capitalized as an intangible asset.

(iii) Under the previous accounting standard, a bargain purchase (negative goodwill) was capitalized and amortized within 20 years. Under the revised standards, a bargain purchase is recognized as profit on the acquisition date.

(iv) Under the previous accounting standard, when a parent obtained control over a subsidiary by a step acquisition, goodwill was measured on the date the parent obtained control as the difference between (a) the aggregate carrying amount of any previously held equity interests and the purchase consideration and (b) the net amount of the fair value of assets and the liabilities attributable to the parent on the date the parent obtained control. Under the revised standards, the acquirer should remeasure its previously held equity interests in the acquiree at its acquisition-date fair value and recognize any resulting gain or loss. Goodwill is measured at the acquisition date as the difference between (1) the aggregate of the acquisition-date fair value of the consideration transferred, the amount of any non-controlling interests in the entity acquired and the acquisition-date fair value of any previously held equity interests in the entity acquired and (2) the net of the acquisition-date fair value of the identifiable assets acquired and the liabilities assumed.

(2) Accounting for investments in funds

For the investments in funds categorized as subsidiaries but not within the scope of consolidation, the Company's proportionate share in the net assets and revenue/expenses of those funds is calculated based on the funds' annual financial statements or semi-annual financial statements and is presented as "Investment securities" (Non-current assets) and revenue/expenses, respectively.

For the investments in funds held for operational investment purposes, which are not categorized as subsidiaries, the Company's proportionate share in the net assets and revenue/expenses of those funds is calculated based on the funds' annual financial statements or interim financial statements and is presented as "Operational investment securities" (Current assets) and revenue/expenses, respectively.

For the investment in funds other than those held for operational investment purposes, which are not categorized as subsidiaries, the Company's proportionate share in the net assets and revenue/expenses of those funds is calculated based on the funds' annual financial statements or interim financial statements and is presented as "Investment securities" (Non-current assets) and non-operating income/expenses, respectively.

(3) Deferred charges

(a) Stock issuance costs

Stock issuance costs are amortized over 3 years by using the straight-line method.

(b) Bond issuance costs

Bond issuance costs are amortized over the bond term by using the straight-line method.

(c) Deferred operating costs under Section 113 of the Insurance Business Act

These deferred operating costs can be amortized within 10 years according to section 113 of the Insurance Business Act of Japan.

(4) Accounting for consumption tax

The amounts in the consolidated financial statements are presented without consumption or local consumption taxes.

(5) Cash segregated as deposits

Cash segregated as deposits are mainly client's trust money and cash deposited as collateral under the regulatory requirement, and stated at cost.

(6) Loans and receivables

Loans and receivables including notes and accounts receivable—trade, operational loans receivable and other loans receivable are measured at historical cost less allowance for doubtful accounts. The carrying amount of loans and receivables is reduced through the use of an allowance account. Margin loans receivable are stated at amounts equal to the purchase amounts of the relevant securities, which are collateralized by customers' securities and customers' deposits. (See the accounting policy in respect of allowance for doubtful accounts).

(7) Deposits from customers and guarantee deposits received

Deposits received are mainly deposits received from customers and guarantee deposits received which are recognized at cost.

(8) Impairment losses on non-current assets

The Group reviews their non-current assets for impairment whenever events or changes in circumstance indicate that the carrying amount of an asset or asset group may not be recoverable.

An impairment loss is recognized if the carrying amount of an asset or asset group exceeds the sum of the undiscounted future cash flows expected to result from the continued use and eventual disposition of the asset or asset group.

The impairment loss is measured as the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of the discounted cash flows from the continued use and eventual disposition of the asset or the net selling price at disposition.

(9) Asset retirement obligation

Asset retirement obligation is recognized when there is a present obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation. The asset retirement obligation is measured at the present value.

(10) Borrowings

Borrowings are stated at cost, which represent the loans payable and bonds payable outstanding at the balance sheet date.

(11) Retail margin trading liabilities

Retail margin trading liabilities are stated at cost.

(12) Stock options

ASBJ Statement No. 8, "Accounting Standard for Stock Options" and related guidance are applicable to stock options granted on and after 1 May 2006. This standard requires companies to recognize compensation expense for employee stock options based on the fair value at the date of grant and expense over the vesting period as consideration for receiving goods or services.

The standard also requires companies to account for stock options granted to non-employees based on the fair value of either the stock options granted or the goods or services received. In the consolidated balance sheets, the stock option is presented as a stock acquisition right as a separate component of equity until exercised.

The standard covers equity-settled share-based payment transactions but does not cover cash-settled share-based payment transactions. The standard allows the stock options granted by unlisted companies to be measured at their intrinsic value if their fair values cannot be reliably estimated. The Group applied this accounting standard for stock options granted after 1 May 2006.

(13) Bonuses to directors and statutory auditors

Bonuses to directors and statutory auditors are accrued at the balance sheet date.

(14) Income taxes

The provision for income taxes is computed based on the pretax income included in the consolidated statements of operations.

The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities.

Deferred taxes are measured by applying currently enacted tax laws to the temporary differences.

A valuation allowance is provided for deferred tax assets if it is more likely than not that these items will either expire before the Group is able to realize their benefits, or that future deductibility is uncertain.

(15) Per share information

Basic net income per share is computed by dividing net income available to common shareholders by the weighted-average number of common shares outstanding for the period.

Diluted net income per share reflects the potential dilution that could occur if securities were exercised or converted into common stock. Diluted net income per share of common stock assumes full conversion of the outstanding convertible notes and bonds at the beginning of the year (or at the time of issuance) with an applicable adjustment for related interest expense, net of tax, and full exercise of outstanding warrants.

Cash dividends per share presented in the accompanying consolidated statements of operations are dividends attributable to the respective years including dividends to be paid after the end of the year.

III. NEW AND REVISED ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

Revision of Accounting Standard for Consolidated Financial Statements (ASBJ Statement No. 22) and related Implementation Guidance and Practical Solution (revised on 25 March 2011, the "Revised Standards")

Before the revision of accounting standards, the special purpose company under certain conditions was not presumed to be a subsidiary of the investor or company which transfers its assets to the special purpose company. Under the Revised Standards, only the company which transfers its assets can apply the presumption. The Group plans to apply the Revised Standards from the beginning of fiscal year ending 31 March 2014.

Since no entities have been presumed to be a subsidiary under the current accounting standard, no significant affect on the consolidated financial statements.

IV. CHANGES IN PRESENTATION

The following presentation changes are reflected on respective consolidated statements of operations:

1. "Amortization of stock issuance costs" and "Amortization of bond issuance costs," which were separately presented for the year ended 31 March 2011, were included in "Others" of "Non-operating expense" in the consolidated statements of operations for the year ended 31 March 2012 as the amounts were immaterial. As a result, "Amortization of stock issuance costs" and "Amortization of bond issuance costs" for the year ended 31 March 2011 of ¥50 million and ¥90 million, respectively, were reclassified into "Others" of "Non-operating expense."
2. "Reversal of allowance for doubtful accounts" and "Gains on the changes in interests in consolidated subsidiaries and equity method investees," which were separately presented in the consolidated statements of operations for the year ended 31 March 2011 were included in "Others" of "Extraordinary income" in the consolidated statements of operations for the year ended 31 March 2012 as the amounts were immaterial. As a result, "Reversal of allowance for doubtful accounts" and "Gains on the changes in interests in consolidated subsidiaries and equity method investees" for the year ended 31 March 2011 of ¥68 million and ¥63 million, respectively were reclassified into "Others" of "Extraordinary income."
3. "Losses on the changes in equity interests in consolidated subsidiaries and equity method investees" and "Losses on retirements of non-current assets," which were separately presented in the consolidated statements of operations for the year ended 31 March 2011 were included in "Others" of "Extraordinary expense" in the consolidated statements of operations for the year ended 31 March 2012 as the amounts were immaterial. As a result, "Losses on the changes in equity interests in consolidated subsidiaries and equity method investees" and "Losses on retirements of non-current assets" for the year ended 31 March 2011 of ¥23 million and ¥193 million, respectively, were reclassified into "Others" of "Extraordinary expense."

V. ADDITIONAL INFORMATION

Application of Accounting Standard for Accounting Changes and Error Corrections

The Company has applied "Accounting Standard for Accounting Changes and Error Corrections" (ASBJ Statement No. 24 issued on 4 December 2009) and "Guidance on Accounting Standard for Accounting Changes and Error Corrections" (ASBJ Guidance No. 24 issued on 4 December 2009) to the accounting changes and error corrections which have been made after 31 March 2011.

Stock Benefit Trust

At the board meeting held on 29 September 2011, the Directors of the Company resolved to introduce "Stock Benefit Trust (Employee Stockholding Association Purchase-type)" (hereinafter the "Plan" and the "Trust").

The purpose of the Plan is to improve employees' welfare and to increase their motivations for work and awareness of the Company's stock performance through its steady provision of stock to the employee stockholding association and distribution of the profit created by trust property management in order to increase the Company's corporate value.

Accounting for the Trust is based upon the assumption that the Company and the Trust are inseparable. The Company's stock held by the Trust is accounted for as treasury stock while the Trust's assets and liabilities as well as its income and expenses are included in the Group's consolidated financial statements. The number of the stocks held by the Trust is included in the number of treasury stock and not included in the number of shares outstanding for the calculation of per share information. The number of treasury stock held by the Trust as at 31 March 2012 was 70,604 shares.

Adoption of the Consolidation Tax Fillings

The Company and certain subsidiaries made an application for the consolidation tax fillings to the tax authority in December 2011. The application was approved, and the consolidation tax fillings will be adopted from the fiscal year beginning on 1 April 2012. Preparing for the adoption, the financial statements for this fiscal year are presented in accordance with "Tentative Solution for the Deferred Tax Accounting on Application of Tax Consolidation (part 1)" (Practical Issues Task Force No. 5 revised on 18 March 2011) and "Tentative Solution for the Deferred Tax Accounting on Application of Tax Consolidation (part 2)" (Practical Issues Task Force No. 7, 30 June 2010).

VI. NOTES TO CONSOLIDATED BALANCE SHEETS

1. Operational investment securities

As at 31 March 2011 and 2012, operational investment securities included investments in funds and direct investments. Investment in funds included in operational investment securities consisted of the following:

	As at 31 March	
	2011	2012
	(millions of Yen)	(millions of Yen)
New Horizon Capital, L.P	17,041	**9,237**
NEW HORIZON FUND, L.P	5,231	**4,713**
New Horizon Capital III, L.P	2,069	**3,080**
SBI & BDJB CHINA FUND, L.P	2,370	**2,885**
Jefferies SBI USA Fund L.P.	795	**1,631**
SBI BB MEDIA INVESTMENT LIMITED PARTNERSHIP	1,217	**1,195**
LC Fund III, L.P.	1,029	**1,039**
Others	1,989	**4,161**
Subtotal (Investments in funds)	31,746	**27,944**
Direct investments	110,135	**120,155**
Total	141,881	**148,099**

2. Real estate inventories

Real estate inventories consisted of the following:

	As at 31 March	
	2011	2012
	(millions of Yen)	(millions of Yen)
Real estate for sale	7,505	**3,866**
Real estate for sale in progress	7,083	**6,430**
Real estate for development	1,403	**1,403**
Beneficial interest in real estate investment trust	821	**—**
Total	16,812	**11,699**

3. Investments in unconsolidated subsidiaries and affiliates

Investments in unconsolidated subsidiaries and affiliates are as follows:

	As at 31 March	
	2011	2012
	(millions of Yen)	(millions of Yen)
Investment securities	43,463	**51,087**

The above investment securities include investments in jointly controlled entities of ¥20,763 million and ¥23,816 million as at 31 March 2011 and 2012, respectively.

4. Pledged assets

Pledged assets consisted of the following:

	As at 31 March	
	2011	2012
	(millions of Yen)	(millions of Yen)
Cash and deposits	521	**1**
Notes and accounts receivable—trade	2,126	**417**
Operational investment securities	420	**1,291**
Operational loans receivable	3,206	**3,047**
Real estate inventories	747	**537**
Others—current assets	4,593	**3,407**
Buildings	4,570	**4,391**
Land	5,063	**5,475**
Investment securities	1,937	**1,314**
Total	23,188	**19,883**
The assets were pledged as collateral for:		
Short-term loans payable	9,038	**1,318**
Current portion of long-term loans payable	1,291	**1,402**
Current portion of bonds payable	60	**60**
Long-term loans payable	8,269	**12,040**
Bonds payable	540	**480**

Besides the above, securities received as collateral for financing from broker's own capital of ¥1,163 million and ¥7,422 million were pledged as collateral for borrowings on margin transactions as at 31 March 2011 and 2012, respectively.

5. Contingent liabilities

Guarantees for the debts owed to other financial institutions in the Group's credit guarantee business are as follows:

	As at 31 March	
	2011	2012
	(millions of Yen)	(millions of Yen)
Guarantee of bank loans	18,234	**47,169**

6. Off-balance sheet items—Fair values of the securities deposited in securities-related businesses

Securities deposited in securities-related businesses represented securities lent to customers under securities lending arrangements.

Fair values of the securities deposited in securities-related businesses are as follows:

	As at 31 March	
	2011	2012
	(millions of Yen)	(millions of Yen)
Securities loaned on margin transactions	73,267	**101,846**
Securities pledged for borrowings on margin transactions	71,241	**75,482**
Substitute securities for pledged margin transactions (except those related to customer's direct deposit)	39,118	**27,365**
Substitute securities for guarantee money paid	41,234	**42,910**
Securities loaned under loan agreements	60,481	**79,211**

7. Off-balance sheet items—Fair values of the securities received in securities-related businesses

Securities received in securities-related businesses represented securities borrowed by the Group under securities lending arrangements.

Fair values of the securities received in securities-related businesses are as follows:

	As at 31 March	
	2011	2012
	(millions of Yen)	(millions of Yen)
Securities pledged for loans on margin transactions	211,846	**213,600**
Securities borrowings on margin transactions	20,976	**39,360**
Substitute securities for guarantee money received, which were agreed on as collateral for other transactions	250,092	**243,550**
Substitute securities for margin money received, which were agreed on as collateral for other transactions	100	**100**
Securities borrowed under loan agreements other than margin transactions	71,880	**79,073**

8. Trading instruments

Trading instruments consisted of the following:

	As at 31 March	
	2011	2012
	(millions of Yen)	(millions of Yen)
Equity securities	28	—
Debt securities	188	326
Others	4	4
Subtotal	222	331
Derivatives	2,479	1,431
Total	2,701	1,763

9. Statutory reserves

As at 31 March 2011 and 2012, a reserve for the financial products transaction liabilities was provided in accordance with Article 46-5 of the Japanese Financial Instruments and Exchange Act, and a statutory reserve for price fluctuations was provided in accordance with Article 115 of the Insurance Business Act.

10. Credit facilities provided

Several consolidated subsidiaries were engaged in retail loan business, cash advance business for credit cards, and financing corporate reorganization. The credit facilities provided by these subsidiaries in respect of their operations as at March 31 2011 and 2012 are as follows:

	As at 31 March	
	2011	2012
	(millions of Yen)	(millions of Yen)
Credit facilities	5,986	6,634
Utilized	2,928	3,879
Unused portion	3,057	2,754

It is noted that the above credit facilities can be utilized only if certain conditions are met. The purpose for the borrowings and any credit rating changes of the customers could result in the withdrawal of credit facilities.

11. Lines of credit from financial institutions

To ensure an efficient operating funds procurement, the Group entered into overdraft facilities with 21 banks as at 31 March 2012. Unused overdraft facilities as at March 31 2011 and 2012 are as follows:

	As at 31 March	
	2011	2012
	(millions of Yen)	(millions of Yen)
Lines of credit	160,700	191,030
Used balance	84,424	80,006
Unused portion	76,276	111,023

VII. NOTES TO CONSOLIDATED STATEMENTS OF OPERATIONS

1. Gains (losses) on trading included in net sales consisted of the following:

	Year ended 31 March					
	2011			2012		
	(millions of Yen)	(millions of Yen)	(millions of Yen)	(millions of Yen)	(millions of Yen)	(millions of Yen)
	Realized	Unrealized	Total	Realized	Unrealized	Total
Equity securities	14	0	14	23	0	23
Debt securities	1,307	(23)	1,284	1,003	12	1,016
Others	8,984	1,628	10,613	8,634	1,167	9,801
Total	10,306	1,605	11,911	9,660	1,179	10,840

The above trading gains (losses) included gains (losses) on certain businesses other than securities-related business of ¥55 million and ¥6 million for the years ended 31 March 2011 and 2012, respectively.

2. Cost of sales consisted of the following:

	Year ended 31 March 2011 (millions of Yen)	2012 (millions of Yen)
Cost of sales arising from operational investment securities	7,031	**13,026**
Provision of allowance for operational investment securities losses	5,957	**375**
Financial charges	3,872	**3,612**
Cost of sales arising from real estate inventories	5,465	**6,113**
Others	45,208	**51,623**
Total	67,535	**74,750**

Cost of sales arising from operational investment securities includes valuation losses of ¥1,652 million and ¥4,044 million for the years ended 31 March 2011and 2012, respectively. Others included financial costs and payrolls related to net sales.

3. Selling, general and administrative expenses include the following:

	Year ended 31 March 2011 (millions of Yen)	2012 (millions of Yen)
Payroll and bonuses	10,552	**10,830**
Provision of allowance for doubtful accounts	2,407	**1,694**
Provision of bonuses	61	**97**
Outsourcing fees	11,188	**11,361**
Amortization of goodwill	7,889	**7,866**

4. Research and development costs included in selling, general and administrative expenses

	Year ended 31 March 2011 (millions of Yen)	2012 (millions of Yen)
Research and development costs included in selling, general and administrative expenses	542	**1,156**

5. The Group recorded the following impairment losses:

For the year ended 31 March 2011

Business	Category	Items	Location	Impairment loss amount (Millions of yen)
Brokerage & Investment Banking Business	Assets for online securities operation system	Buildings, furniture and fixtures, software and leased assets	Tokyo	350
Financial Services Business	Assets for operation of car-related information site	Buildings, furniture and fixtures and software, etc.	Tokyo	150
Others	Assets for healthcare-related business	Buildings, furniture and fixtures and software, etc.	Tokyo, etc.	360

(1) Grouping of assets

The grouping of assets was generally based on the smallest cash-generating unit that generates cash inflows that are independent of the cash inflows from other groups. The grouping of lease property and unutilized assets was based on individual assets.

(2) Background to recognize impairment loss

In the Brokerage & Investment Banking Business, implementation of a new online securities operation system necessitated the disposal of the assets used for the prior operation system. Since the recoverable amount was less than the carrying amount, the difference between the recoverable amount and the carrying amount of the assets was recognized as an impairment loss. The amounts of impairment losses for buildings, furniture and fixtures, software and leased assets were ¥2 million, ¥16 million, ¥36 million and ¥295 million, respectively.

In the Financial Services Business, the difference between the recoverable amount and the carrying amount of assets used for the operation of the car-related information site was recognized as an impairment loss due to no expectation of initially expected profits. The amounts of impairment losses for buildings, furniture and fixtures, software and other assets were ¥3 million, ¥7 million, ¥138 million and ¥2 million, respectively.

In the Healthcare-related Business, the difference between the recoverable amount and the carrying amount of assets used for healthcare operations was recognized as an impairment loss due to no expectation of initially expected profits. The amounts of impairment losses for buildings, furniture and fixtures, software and other assets were ¥29 million, ¥86 million, ¥233 million and ¥10 million, respectively.

(3) Calculation of the recoverable amount

For the assets to be disposed of, the recoverable amount is the net sales value of zero. For the other assets, the recoverable amount is the value in use based on the future cash flow.

For the year ended 31 March 2012

Business	Category	Items	Location	Impairment loss amount (Millions of yen)
Financial Services Business	Assets for credit card business, etc.	Buildings, furniture and fixtures and software, etc.	Tokyo	105
Housing and Real Estate Business	Lease property	Buildings and land, etc.	Aichi, Fukuoka	128

(1) Grouping of assets

The grouping of assets was generally based on the smallest cash-generating unit that generates cash inflows that are independent of the cash inflows from other groups. The grouping of lease property and unutilized assets was based on individual assets.

(2) Background to recognize impairment loss

In the Financial Services Business, the difference between the recoverable amount and the carrying amount of assets used for the credit card business, etc was recognized as an impairment loss due to no expectation of initially expected profits. The amounts of the impairment losses for buildings, furniture and fixtures, software and other assets were ¥2 million, ¥14 million, ¥78 million and ¥9 million, respectively.

In the Housing and Real Estate Business, the difference between the recoverable amount and the carrying amount of assets was recognized as an impairment loss due to the significant decrease in the price of lease property. The amounts of impairment losses for buildings and land were ¥47 million and ¥80 million, respectively.

(3) Calculation of the recoverable amount

For lease property, the recoverable amount is calculated with the net sales value by using real estate valuation. For the other assets, the recoverable amount is calculated with the value in use based on the future cash flow.

VIII. NOTES TO CONSOLIDATED STATEMENTS OF COMPREHENSIVE INCOME

Reclassification adjustment and income tax effect on other comprehensive income for the year ended 31 March 2012 is as follows:

	(millions of Yen)
Unrealized losses on available-for-sale securities:	
Gains arising during the year	3,480
Reclassification adjustments to profit or loss	(3,645)
Amount before income tax effect	(164)
Income tax effect	1,554
Total	1,389
Deferred gains (losses) on derivatives under hedge accounting:	
Gains arising during the year	(3)
Reclassification adjustments to profit or loss	4
Amount before income tax effect	0
Income tax effect	4
Total	5
Foreign currency translation adjustment:	
Adjustments arising during the year	(1,438)
Reclassification adjustments to profit or loss	155
Total	(1,283)
Share of other comprehensive income in associates:	
Gains arising during the year	(2,218)
Reclassification adjustments to profit or loss	237
Total	(1,981)
Total other comprehensive income	(1,869)

IX. NOTES TO CONSOLIDATED STATEMENTS OF CHANGES IN NET ASSETS

1. Outstanding number of capital stock and treasury stock

Year ended 31 March 2011	As at 31 March 2010 (shares)	Increase (shares)	Decrease (shares)	As at 31 March 2011 (shares)
Outstanding capital stock				
Common shares (Note)	16,782,291	3,161,727	—	19,944,018
Treasury stock				
Common shares	14,621	—	—	14,621

Note: The increase in common shares of 3,161,727 shares consisted of newly issued 3,112,000 shares of which the settlement date was 23 June 2010, and increase in 49,727 shares by the exercise of stock acquisition rights.

Year ended 31 March 2012	As at 31 March 2011 (shares)	Increase (shares)	Decrease (shares)	As at 31 March 2012 (shares)
Outstanding capital stock				
Common shares (Note 1)	19,944,018	2,507,285	—	22,451,303
Treasury stock				
Common shares (Notes 2, 3 and 4)	14,621	508,125	80,653	442,093

Notes: 1. The increase in common shares of 2,507,285 shares consisted of newly issued 2,000,000 shares through an offering of Hong Kong Depositary Receipts, 432,216 shares and 74,709 shares, respectively for the acquisition of SBI VeriTrans Co., Ltd. and SBI Net Systems Co., Ltd. becoming wholly owned subsidiaries through share exchanges and 360 shares by the exercise of stock acquisition rights.

2. As stated in "V. ADDITIONAL INFORMATION," accounting treatment for the Trust is based upon the assumption that the Company and the Trust are inseparable, thus shares held by the Trust were included in the above movement of treasury stock—common shares.

3. The increase of 508,125 common shares in treasury stock consisted of 321,373 shares acquired as treasury stock subject to Article 156 (replacement of the third paragraph of Article 165) of the Companies Act; 60,000 shares acquired in response to the share purchase demand related to the share exchange to make SBI VeriTrans Co., Ltd. a wholly owned subsidiary in accordance with the first paragraph of Article 797 of the Companies Act; 50,116 shares acquired by a subsidiary related to the acquisition of SBI Net Systems Co., Ltd., to become a wholly owned subsidiary through share exchange and the remaining 76,636 shares acquired by the Trust.

4. The decrease of 80,653 common shares in treasury stock consists of reissuance of 74,621 shares to acquire the remaining share of SBI Net Systems Co., Ltd. to make it a wholly owned subsidiary of the Company and 6,032 shares sold by the Trust to the employee stockholding association.

2. Stock acquisition rights

Year ended 31 March 2011

Entity	Details of stock acquisition rights	Type of share	Number of shares for stock acquisition rights (shares): As at 31 March 2010	Increase	Decrease	As at 31 March 2011	As at 31 March 2011 (millions of Yen)
Reporting entity (the Company)	Stock acquisition rights (Notes 1, 2 and 3)	Common shares	313,512.64	6,811.13	66,405.53	253,918.24	—
Consolidated subsidiaries	—	—	—	—	—	—	11
Total	—	—	—	—	—	—	11

Notes: 1. Stock acquisition rights were exercisable during the year ended 31 March 2011.

2. The increase in stock acquisition rights was due to the adjustment of the number of shares for stock acquisition rights accompanying the issuance of new shares by offering.

3. The decrease in stock acquisition rights was due to the exercise and expiration of the rights.

Year ended 31 March 2012

Entity	Details of stock acquisition rights	Type of share	Number of shares for stock acquisition rights (shares): As at 31 March 2011	Increase	Decrease	As at 31 March 2012	As at 31 March 2012 (millions of Yen)
Reporting entity (the Company)	Stock acquisition rights (Notes 1, 2 and 3)	Common shares	253,918.24	3,404.10	15,234.16	242,088.18	—
Consolidated subsidiaries	—	—	—	—	—	—	10
Total	—	—	—	—	—	—	10

Notes: 1. Stock acquisition rights were exercisable during the year ended 31 March 2012.

2. The increase in stock acquisition rights was due to the adjustment of the number of shares for the issuance of new shares through offering of Hong Kong Depositary Receipts.

3. The decrease in stock acquisition rights was due to the exercise and expiration of the rights.

3. Dividends

Dividends paid

Year ended 31 March 2011

Resolution	Type of share	Dividend amount (millions of Yen)	Amount per share (Yen)	Declared date	Effective date
Board of Directors' Meeting on 26 May 2010	Common shares	1,676	100	31 March 2010	14 June 2010

Year ended 31 March 2012

Resolution	Type of share	Dividend amount (millions of Yen)	Amount per share (Yen)	Declared date	Effective date
Board of Directors' Meeting on 27 April 2011	Common shares	2,391	120	31 March 2011	9 June 2011

Dividend whose declared date fell in the year ended 31 March 2012, and whose effective date will be in the year ended 31 March 2013

Resolution	Type of share	Dividend amount (millions of Yen)	Dividend resource	Amount per share (Yen)	Declared date	Effective date
Board of Directors' Meeting on 26 April 2012	Common shares	2,207	Retained earnings	100	31 March 2012	7 June 2012

X. NOTES TO CONSOLIDATED STATEMENT OF CASH FLOWS

1. Cash and cash equivalents reconciliation

	Year ended 31 March	
	2011	2012
	(millions of Yen)	(millions of Yen)
Cash and deposits	150,268	**146,055**
Time deposits with original maturity of more than three months	(1,623)	**(629)**
Money Market Fund (MMF) included in trading instruments	142	**168**
Deposit included in others (current assets)	0	**—**

2. Cash paid/received resulting from change in scope of consolidation

For the year ended 31 March 2011

The followings are details of the business combination, acquisition of SBI Global Investment Co., Ltd.:

	millions of Yen
Current assets	1,562
Non-current assets	47
Goodwill	281
Current liabilities	(604)
Minority interests	(601)
Consideration paid for stocks of SBI Global Investment Co., Ltd.	685
Carrying value of previously held equity interest	(493)
Loss arising from remeasurement of the previously held equity interest	189
Cash and cash equivalents of SBI Global investment Co., Ltd.	(133)
Difference: Net cash paid in acquisition of SBI Global investment Co., Ltd.	248

For the year ended 31 March 2012

The followings are details of the sale of stock of SBI VeriTrans Co., Ltd., a former subsidiary:

	millions of Yen
Current assets	**9,139**
Non-current assets	**970**
Goodwill	**1,576**
Current liabilities	**(7,225)**
Non-current liabilities	**(11)**
Minority interests	**(69)**
Gains arising from selling stocks	**8,618**
Consideration to be received from sales of stocks of SBI VeriTrans Co., Ltd.	**13,000**
Accounts receivable—others	**(13,000)**
Cash and cash equivalents of SBI VeriTrans Co., Ltd.	**(7,493)**
Difference: Cash paid from sales of investment in SBI VeriTrans Co. Ltd.	**(7,493)**

XI. NOTES TO LEASE TRANSACTIONS

LESSEE

1. Finance lease

Finance lease transactions commenced before 31 March 2008 that did not transfer ownership are accounted for in a manner similar to an operating lease transaction. The information regarding these leases is as follows:

(a) Pro forma information of leased assets, on an "as if capitalized" basis as at 31 March 2011 and 2012

As at 31 March 2011	Acquisition costs (millions of Yen)	Accumulated depreciation (millions of Yen)	Carrying amount (millions of Yen)
Buildings	660	579	81
Furniture and fixtures	909	759	149
Software	208	181	27
Total	1,779	1,520	258

As at 31 March 2012	Acquisition costs (millions of Yen)	Accumulated depreciation (millions of Yen)	Carrying amount (millions of Yen)
Buildings	**660**	**608**	**52**
Furniture and fixtures	**193**	**173**	**20**
Software	**0**	**0**	**0**
Total	**855**	**782**	**73**

(b) Obligation balances under finance leases

	As at 31 March	
	2011	**2012**
	(millions of Yen)	(millions of Yen)
Due within one year	213	**76**
Due after one year	125	**49**
Total	339	**125**

Note: The above information included obligations under finance leases, which were not cancellable for sub-lease contracts.

(c) Lease payments, reversal of accumulated impairment losses, depreciation, interest expenses and impairment losses:

	As at 31 March	
	2011	**2012**
	(millions of Yen)	(millions of Yen)
Lease payments	1,076	**226**
Reversal of accumulated impairment losses	295	**—**
Depreciation	976	**182**
Interest expenses	27	**11**
Impairment losses	295	**—**

(d) Depreciation method

Leased assets were depreciated by using the straight-line method over the lease terms with a residual value of zero.

(e) Calculation of interest expenses

The difference between total lease payments and the acquisition cost was assumed to be interest expense and the interest method was used to allocate interest expense to each year.

2. Operating lease

Future lease payments on operating lease contracts, which were not cancellable:

	As at 31 March	
	2011	**2012**
	(millions of Yen)	(millions of Yen)
Due within one year	0	**—**
Due after one year	—	**—**
Total	0	**—**

LESSOR

1. Net investments in leases

	As at 31 March 2011 (millions of Yen)	As at 31 March 2012 (millions of Yen)
Leases receivable	9,373	**5,188**
Estimated residual values	14	**—**
Unearned interest income	(413)	**(172)**
Investment in leases, current	8,974	**5,016**

2. Maturity analysis for leases receivable for finance leases that transfer ownership of the leased assets to the lessee

As at 31 March 2011	Within 1 year	1 to 2 years	2 to 3 years	3 to 4 years	4 to 5 years	Over 5 years
Leases receivable (millions of Yen)	2,650	2,029	1,374	1,010	500	—
Investments in leases (millions of Yen)	2,403	2,110	1,899	1,770	1,150	39

As at 31 March 2012	Within 1 year	1 to 2 years	2 to 3 years	3 to 4 years	4 to 5 years	Over 5 years
Leases receivable (millions of Yen)	**2,933**	**2,270**	**1,912**	**1,430**	**604**	**—**
Investments in leases (millions of Yen)	**1,607**	**1,418**	**1,294**	**823**	**45**	**—**

3. Future lease payments to be received under operating leases, which were not cancellable

	As at 31 March 2011 (millions of Yen)	As at 31 March 2012 (millions of Yen)
Within one year	0	**—**
Over one year	—	**—**
Total	0	**—**

4. Leases receivable and lease investment assets, and lease obligations under a sublease transaction recorded at cost including the interest portion

(a) Leases receivable and lease investment assets

	As at 31 March 2011 (millions of Yen)	As at 31 March 2012 (millions of Yen)
Current assets	5,665	**2,770**

(b) Lease obligation

	As at 31 March 2011 (millions of Yen)	As at 31 March 2012 (millions of Yen)
Current liabilities	1,167	**723**
Non-current liabilities	3,984	**1,990**

XII. FINANCIAL INSTRUMENTS

1. Details of the financial instruments

(1) Group Policy for Financial Instruments

The Group engages in a wide range of finance-related businesses, such as investment business, fund management business, securities business, leasing business, loan business, credit card business and insurance businesses, to avoid excessive concentration of risk on specific entities or businesses. To operate these businesses, the Group raises funds by indirect financing such as bank borrowing, direct financing such as bond issuance and equity financing, and transactions with securities financing companies. The Group also considers the market environment and maintains an appropriate strategy for short and long-term financing.

The Group and certain consolidated subsidiaries utilize derivative instruments, including foreign currency forward contracts, interest rate swaps, index futures, and foreign currency spot contracts.

The Group entered into foreign currency forward contracts and interest swap transactions primarily to hedge foreign exchange risk and to manage its interest rate exposures on borrowings, respectively. The Group does not hold or issue them for speculative purpose. Index futures and commodity futures were entered for the purpose of day trading or capping the size of their transactions. Index futures were mainly for daily trading under limited trading scales. Foreign currency spot contracts were entered into for managing the exposures on foreign currency brokerage transactions. The transactions were conducted with individually counterparties based on the Group's "Position Management Rule."

(2) Nature and Extent of Risks Arising from Financial Instruments

Financial assets held by the Group primarily consist of investment-related assets, securities-related assets and financing-related assets.

Investment-related assets include short-term investment securities, operational investment securities, and investment securities, which primarily represent investment in stocks and funds. These assets are held through the Company or certain consolidated subsidiaries (including the consolidated investment funds) of the Company for the purpose of fostering the development of venture capital portfolio companies or earning capital gains. These assets are exposed to the issuer's credit risk and the stock price fluctuation risk. Furthermore, unlisted equity securities are exposed to liquidity risk and investment assets denominated in foreign currency are exposed to the risk of exchange fluctuations.

Securities-related assets consist of trading instruments, margin transaction assets, short-term guarantee deposits and cash segregated as deposits. These assets are exposed to the credit risk and the interest rate risk of the brokerage customers of some of the consolidated subsidiaries, securities financing companies, and financial institutions.

Financing-related assets consist of operational loans receivable, leases receivable and lease investment assets and accounts receivable. These assets include real estate loans for domestic companies and individuals, unsecured personal loans, leases receivable and lease investment assets for operational companies and the receivable arising from the sales of the leasing business or credit card business. These assets are exposed to the interest rate risk and credit risk of accounts such as default due to worsening economic conditions with higher credit risk exposure.

Financial liabilities of the Group primarily consist of loans payable, bonds payable and securities-related liabilities. The loans payable of the Group are exposed to liquidity risk from changes in the pricing policy of the financial institutions to the Group. Also, the bonds payable are monitored due to liquidity risk from market conditions or reducing credit rating of the Group.

Securities-related liabilities consist of margin transaction liabilities, loans payable secured by securities on repurchase agreement transactions, guarantee deposits received from margin transactions, and deposits from customers. The financing environment of the security business operated by the Group's certain subsidiaries is affected by the business policy of security financing companies and their investment strategy. The Group exercises control by matching the financing with the related security assets.

The Group enters into foreign currency forward contracts and interest swap transactions primarily to hedge foreign exchange risk associated with receivables, payables and securities denominated in foreign currencies and to manage its interest rate exposures on borrowings, respectively.

The Group manages index futures as a part of investment business which is exposed to market risk. Because the counterparties of foreign currency forward contracts and interest rate swap agreements are limited to creditworthy major Japanese financial institutions and index futures are traded in the public market, the credit risk arising from default is considered to be minimal.

The Group also enters into foreign currency spot contracts in the course of ordinary operations, and for hedging risks arising from the business. The transactions are subject to interest rate risks and foreign currency risks as well as exposed to credit risks with customers and credit and settlement risks with counterparties.

(3) Risk Management System over Financial Instruments

In order to maintain financial strength and appropriate operational procedures, the Company has risk management policies to identify, analyze and manage the relevant risks integrally. The management policies for credit risk, market risk, and liquidity risk are as follows:

Credit risk management

(a) Accurately analyze financial conditions of investees/debtors and quantity of relevant credit risk.
(b) Appropriately manage the Group's own capital and the related risks by periodic monitoring.
(c) Under foreign investments or lending transaction, the Group identifies intrinsic risk of investees/debtors through with domestic/foreign offices as well as overseas partners followed by periodic monitoring.
(d) Recognize investment risk as significant risk to be controlled among various credit risks and perform detailed analysis of fluctuation in risk associated with operational investment securities.

Market risk management

(a) Understand underlying currency and term of assets and quantify market risk.
(b) Appropriately manage the balance between the Group's own capital and its related risk by periodic monitoring.
(c) Never enter into derivative transactions for speculative purposes in absence of established operating rules.

Liquidity risk management

(a) Secure various financing arrangements such as bank overdraft facility, bond issuance registration or stock issuance.
(b) Collect information on the Group's working capital requirement and understand the cash flow positions.
(c) Obtain reports from the department responsible for cash management based upon the liquidity risk management policies stated in (a) and (b) above to monitor cash flow risks.

Under these policies, the Company assigns a risk management officer who is in charge of risk management and sets up a risk management department in line with the risk management rules and the Group's risk control rules in order to properly analyze and control these risks. The risk management department analyzes and monitors the Group's risk on a timely basis.

(4) Fair Values of Financial Instruments

Fair values of financial instruments are based on the quoted market price. If the quoted market price is not available, fair values are calculated with valuation techniques which are considered to be reasonable. As the fair value determination takes variable factors into consideration, such fair values may fluctuate by using different assumptions. Please see section "XIV. DERIVATIVE CONTRACTS" for the details of fair value of derivatives.

2. Fair value of financial instruments

The tables below presents the carrying amounts, the fair value of the financial instruments, and the difference between the carrying amounts and fair value as at 31 March 2011 and 2012.

The tables below do not include assets and liabilities which cannot be measured at fair value due to difficulties in determining fair value (refer to Note 2).

	As at 31 March 2011			As at 31 March 2012		
	Carrying amount (millions of Yen)	Fair value (millions of Yen)	Difference (millions of Yen)	Carrying amount (millions of Yen)	Fair value (millions of Yen)	Difference (millions of Yen)

Derivatives (*4)	2,367	2,367	—	1,191	1,191	—

Notes: (*1) Includes general reserve and specific reserve for operational loans receivable.
(*2) Includes current-portion of bonds payable.
(*3) Includes current-portion of long-term loans payable.
(*4) Receivables and payables arising from derivative transactions are stated at net value in the tables above.

NOTES:

(1) Calculation of fair value of financial instruments, investment securities and derivatives

(a) Assets

(i) (1) Cash and deposits, (5) Cash segregated as deposits, and (9) Short-term guarantee deposits

The fair values are measured at the carrying values as they approximate the carrying values because of their short maturities.

(ii) (2) Notes and accounts receivable—trade

With respect to notes and accounts receivable with short maturities, fair values are measured at the carrying values as they approximate the carrying values.

The fair values of receivables settled over long-term periods such as installment sales receivable are measured at the present value of the future cash inflow discounted at the discount rate considering government risk-free rates and credit risk rates.

(iii) (3) Leases receivable and lease investment assets

The fair values of leases receivable and lease investment assets are measured at the present value of the future cash inflow discounted at the discount rate considering government risk-free rates and credit risk rates.

(iv) (4) Short-term investment securities, operational investment securities and investment securities and (7) Trading instruments

The fair values of equity securities are measured at the quoted market price of the stock exchange. The fair values of bonds are measured at the quoted market price of the stock exchange or the quoted price provided by financial institutions. The fair values of investment trusts are measured at the price quoted by financial institutions. The fair values of investments in funds are measured at the fair values of partnership net assets based on the Group's percentage of share in the contributed capital, if such fair values are available. Unlisted available-for-sale securities held by certain overseas subsidiaries adopting International Financial Reporting Standards are measured at fair value.

(v) (6) Operational loans receivable

The fair values of operational loans receivable are measured at the present value of the future cash inflows, which are classified into different types of receivables and discounted at the rate determined by reference to an appropriate index such as a government bond yield adjusted with relevant credit risk.

As the estimated credit losses are provided based on the individual assessment of recoverability of loans receivable held by certain consolidated subsidiaries with corporate restructuring business, the fair values are measured at the carrying values less allowance for doubtful accounts since they approximate the measured values.

(vi) (8) Margin transaction assets

With respect to receivables from customers of margin transaction assets, the fair values are measured at the carrying value as the interest rates of the loans are floating rates and reflect the market interest rate within a short period so that, unless the borrower's credit condition changes significantly, the fair values are considered to approximate the carrying value.

Of these receivables, the fair values of those without set maturity dates due to certain conditions, such as the placing of a cap on the amount of loans which does not exceed the value of pledged assets, are measured at the carrying value. Based on the expected repayment term and the terms of interest, the fair values are considered to approximate the carrying values. With respect to cash collateral pledged for securities borrowings on margin transactions, the fair values are measured at the carrying value because of their short maturities.

(b) Liabilities

The fair values of liabilities other than (7) Bonds payable and (8) Long-term loans payable are measured at the carrying values as they approximate the carrying values because of their short maturities.

(i) (7) Bonds payable

With respect to bonds payable with floating interest rates, the fair values are measured at the carrying value as the interest rates of the debt reflect the market interest rate within a short period and as the credit condition of companies that obtained the debt are not expected to change significantly.

With respect to bonds payable with fixed interest rates, the fair values are measured at the present value of the future cash outflows considering the remaining periods and the discount rate adjusted with credit risks.

With respect to bonds payable with maturity of within one year, the fair values are measured at the carrying values as they approximate the carrying values because of their short maturities.

(ii) (8) Long-term loans payable

With respect to long-term loans payable with floating interest rates, the fair values are measured at the carrying value as the interest rates of the debt reflect the market interest rate within a short period and as the credit conditions of consolidated subsidiaries that obtained the debt are not expected to change significantly.

With respect to long-term loans payable with fixed interest rates, the fair values are measured at the present value of the future cash outflows, where the sum of principal and interest at certain intervals, or the sum of principal and interest determined using interest swap rates for which the special hedge accounting treatment is used, is discounted at the discount rate that may be applicable for similar types of debt.

(c) Derivatives

The information of the fair value for derivatives is included in section "XIV. DERIVARTIVE CONTRACTS."

(2) The following securities were stated at cost because the fair values could not be reliably determined. They were excluded from "Assets-(iv) (4) Short-term investment securities, operational investment securities and investment securities" of "Fair value of financial instruments."

As at 31 March 2011

Classification	Carrying amount (millions of Yen)
Available-for-sale securities	
Non-fair valued equity securities (*1)	82,363
Non-fair valued bonds	
Convertible bonds with stock acquisition rights (*2)	2,200
Investments in funds (*3)	6,032
Stock acquisition rights (*2)	946
Total	91,543

Investments in subsidiaries and affiliates	
Unlisted equity securities (*1)	38,043
Investments in funds (*3)	351
Total	38,395

As at 31 March 2012

Classification	Carrying amount (millions of Yen)
Available-for-sale securities	
Non-fair valued equity securities (*1)	**89,670**
Non-fair valued bonds	
Convertible bonds with stock acquisition rights (*2)	**1,941**
Investments in funds (*3)	**7,161**
Stock acquisition rights (*2)	**943**
Total	**99,716**

Investments in subsidiaries and affiliates	
Unlisted equity securities (*1)	**45,554**
Investments in funds (*3)	**366**
Total	**45,921**

(*1) Unlisted equity securities were excluded from the fair value disclosure as there was no market value and it was extremely difficult to measure the fair value.

(*2) Convertible bonds with stock acquisition rights were excluded from the fair value disclosure as there was no market value and it was extremely difficult to estimate the future cash flow as a basis of fair value.

(*3) Investments in funds whose investments were mainly composed of unlisted equity securities were excluded from the fair value disclosure as it was extremely difficult to measure the fair value of unlisted equity.

XIII. SECURITIES

For the year ended 31 March 2011

1. Trading instruments

Valuation losses of ¥14 million were included in income for the year ended 31 March 2011.

2. Available-for-sale securities with fair values

	Type	Carrying amount (millions of Yen)	Acquisition costs (millions of Yen)	Difference (millions of Yen)
Carrying amount exceeds acquisition cost	(1) Equity securities	6,430	4,633	1,797
	(2) Debt securities			
	Corporate bonds	52	50	2
	(3) Others	9,143	5,554	3,588
	Sub-total	15,626	10,238	5,388
Carrying amount does not exceed acquisition cost	(1) Equity securities	104,008	113,662	(9,654)
	(2) Debt securities			
	Corporate bonds	3,851	3,851	—
	(3) Others	28,603	29,333	(730)
	Sub-total	136,463	146,847	(10,384)
Total		152,090	157,085	(4,995)

3. Available-for-sale securities sold during the year

Securities	Proceeds from sales (millions of Yen)	Gains on sales (millions of Yen)	Losses on sales (millions of Yen)
(1) Equity securities	11,888	6,199	967
(2) Debt securities			
Corporate bonds	6	1	—
Others	—	—	—
(3) Others	—	—	—
Total	11,895	6,200	967

4. Impairment loss on securities

As impairment loss on equity securities of ¥2,174 million (¥1,858 million on available-for-sale securities and ¥315 million on investments in subsidiaries and affiliates) was recorded during the year 2011.

For the year ended 31 March 2012

1. Trading instruments

Valuation gains of ¥12 million were included in income for the year ended 31 March 2012.

2. Available-for-sale securities with fair values

	Type	Carrying amount (millions of Yen)	Acquisition costs (millions of Yen)	Difference (millions of Yen)
Carrying amount exceeds acquisition cost	(1) Equity securities	3,835	2,336	1,498
	(2) Debt securities			
	Corporate bonds	50	50	0
	(3) Others	11,731	8,029	3,701
	Sub-total	15,617	10,416	5,200
Carrying amount does not exceed acquisition cost	(1) Equity securities	117,678	119,754	(2,075)
	(2) Debt securities			
	Corporate bonds	3,837	3,838	(1)
	(3) Others	21,501	22,586	(1,084)
	Sub-total	143,017	146,179	(3,162)
Total		158,634	156,595	2,038

3. Available-for-sale securities sold during the year

Securities	Proceeds from sales (millions of Yen)	Gains on sales (millions of Yen)	Losses on sales (millions of Yen)
(1) Equity securities	30,234	19,648	1,902
(2) Debt securities			
Corporate bonds	664	—	28
Others	—	—	—
(3) Others	848	1	—
Total	31,748	19,649	1,931

4. Impairment loss on securities

As impairment loss on equity securities of ¥4,032 million (¥4,032 million on available-for-sale securities) was recorded during the year 2012.

XIV. DERIVATIVE CONTRACTS

As at 31 March 2011 and 2012

1. Derivatives not subject to hedge accounting policy

(1) Foreign currency related

As at 31 March 2011

Type	Transaction	Contractual amounts (millions of Yen)	Over 1 year (millions of Yen)	Fair value (millions of Yen)	Valuation gains (losses) (millions of Yen)
Transactions outside market	Foreign currency forward contracts				
	Short	85	—	(0)	(0)
	Long	91	—	(0)	(0)
	Foreign currency spot contracts				
	Short	187,335	—	73	73
	Long	184,683	—	2,294	2,294
Total		—	—	2,367	2,367

As at 31 March 2012

Type	Transaction	Contractual amounts (millions of Yen)	Over 1 year (millions of Yen)	Fair value (millions of Yen)	Valuation gains (losses) (millions of Yen)
Transactions outside market	Foreign currency forward contracts				
	Short	59	—	0	0
	Long	138	—	(0)	(0)
	Foreign currency spot contracts				
	Short	276,916	—	(226)	(226)
	Long	275,697	—	1,422	1,422
Total		—	—	1,195	1,195

The fair value of foreign currency forward contracts was stated based on the future exchange rate at the balance sheet date, whereas the fair value of foreign currency spot contracts was based on the spot rate at the balance sheet date.

(2) Securities related

As at 31 March 2011

Type	Transaction	Contractual amounts (millions of Yen)	Over 1 year (millions of Yen)	Fair value (millions of Yen)	Valuation gains (losses) (millions of Yen)
Market transactions	Index futures				
	Short	68	—	(0)	(0)

As at 31 March 2012

Type	Transaction	Contractual amounts (millions of Yen)	Over 1 year (millions of Yen)	Fair value (millions of Yen)	Valuation gains (losses) (millions of Yen)
Market transactions	Index futures				
	Short	4	—	1	1
Transactions outside market	Option transaction				
	Long	27	—	7	7
Total		—	—	9	9

The fair value of index futures was based on the market closing price at the balance sheet date in each stock market.

2. Derivatives subject to hedge accounting

Hedge accounting method	Transaction	Hedged balance	Contract amounts (millions of Yen)	Over 1 year (millions of Yen)	Fair value (millions of Yen)
			As at 31 March 2011		
Deferred method of interest rate swap	Interest rate swaps Variable receipt fixed payment	Bonds payable	600	540	(14)
Interest rate swap	Interest rate swaps Variable receipt fixed payment	Long-term loans payable	5,480	3,460	(Note 2)

Hedge accounting method	Transaction	Hedged balance	Contract amounts (millions of Yen)	Over 1 year (millions of Yen)	Fair value (millions of Yen)
			As at 31 March 2012		
Deferred method of interest rate swap	Interest rate swaps Variable receipt fixed payment	Bonds payable	**540**	**480**	**(13)**
Interest rate swap	Interest rate swaps Variable receipt fixed payment	Long-term loans payable	**6,660**	**4,268**	**(Note 2)**

Note: 1. Fair values were measured at the quoted market price of the stock exchange or the quoted market price provided by financial institutions.
2. For certain loans payable for which interest rate swaps were used to hedge the interest rate fluctuations, the fair values of derivative financial instruments were included in the fair value of loans payable as hedged items.

XV. RETIREMENT BENEFITS

The Group has a contributory funded defined benefit pension plan and a defined contribution pension plan. Certain of the Group's domestic consolidated subsidiaries have tax-qualified plans, non-contributory funded defined pension plans and either a contributory funded defined benefit pension plan or a defined contribution pension plan for the employee's retirement plan.

1. Detail of the multi-employer plans for which the required contribution amounts were expensed as incurred (latest information)

(a) Total pension funding status:

Kanto IT Software Health Insurance Society

	As at 31 March 2010 (millions of Yen)	As at 31 March 2011 (millions of Yen)
Plan assets	161,054	**171,944**
Benefit obligation	159,998	**172,108**
Difference	1,055	**(163)**

Note: The latest available information one year before the closing date is presented above.

(b) The percentage of participants of the Group to the above pension plan:

	(As at 31 March 2010)	(As at 31 March 2011)
Kanto IT Software Health Insurance Society	1.10%	1.23%

Note: The latest available information one year before the closing date is presented above.

2. Liability for employees' retirement benefits

The following is related to the defined benefit pension plan and tax qualified pension plan for certain domestic consolidated subsidiaries.

	As at 31 March 2011 (millions of Yen)	As at 31 March 2012 (millions of Yen)
(a) Projected benefit obligations	(118)	**(19)**
(b) Fair value of plan assets	48	**2**
(c) Provision for retirement benefits ((a) + (b))	(69)	**(16)**

3. Retirement benefit expense

	Year ended 31 March	
	2011	2012
	(millions of Yen)	(millions of Yen)
Contribution to pension funds (Note 1)	122	**131**
Service cost (Note 2)	41	**12**
Contributions to the defined contribution pension plan (Note 3)	292	**303**
Total	456	**447**

Notes: (1) Contribution amounted to multi-employer pension funds.
(2) Retirement benefit expense of certain domestic consolidated subsidiaries which applied the compendium method.
(3) Contribution to the defined benefit pension plan and prepayment to the pension plan.

4. Basis for calculation of retirement benefit obligation

Certain domestic subsidiaries, which apply either the defined benefit pension plan or tax-qualified pension plan, use the simplified method for the calculation of retirement obligation.

XVI. STOCK OPTION PLAN

Outlines and details of the stock option plan

Stock Option	Number of Options Outstanding	Date of Grant	Exercise Price	Exercise Period
2001 Stock Option	—	2002.2.1	¥19,117*1	From 20 December 2003 to 19 December 2011
2002 Stock Option (1)	12,427.44 shares	2002.12.20	¥ 5,502*1	From 20 December 2004 to 19 December 2012
2003 Stock Option (1)	21,025.04 shares	2003.9.25	¥16,436*1	From 20 December 2004 to 19 December 2012
2003 Stock Option (2)	59,137.81 shares	2003.9.25	¥16,436*1	From 24 June 2005 to 23 June 2013
2003 Stock Option (3)	16,618.77 shares	2003.10.23	¥25,422*1	From 24 June 2005 to 23 June 2013
2005 Stock Option (1)	22,984 shares	2005.7.28	¥32,246*1	From 28 July 2005 to 29 June 2013

*1 Due to the new stock issuance through an offering of Hong Kong Depositary Receipts, the exercise price and the number of objective stock were adjusted.

Stock Options Assumed by the Company due to Mergers and Acquisitions

Stock Option	Number of Options Outstanding	Date of Grant	Exercise Price	Exercise Period

Total deferred tax liabilities	(4,486)	**(2,184)**
Net deferred tax assets	23,429	**22,479**

2. Reconciliation between the normal effective statutory tax rate and the actual effective tax rate

	Year ended 31 March	
	2011	2012
Normal effective tax rate	40.69%	**40.69%**
Expenses not deductible for income taxes purposes (Entertainment expenses, etc.)	1.49%	**3.03%**
Amortization of goodwill	64.17%	**18.24%**
Minority interests in fund, etc.	(39.43)%	**(7.46)%**
Income of the equity method	(1.23)%	**(5.90)%**
Consolidated adjustments of loss on sale of consolidated subsidiaries	(33.05)%	**(6.80)%**
Change in valuation allowance	96.03%	**10.53%**
Decrease of net deferred tax assets due to the change of the future tax rate	—	**12.88%**
Others—net	1.93%	**2.70%**
Actual effective tax rate	130.60%	**67.91%**

3. Impact from the change of the income tax rate

"Act for Partial Revision of the Income Tax Act, etc. for the Purpose of Creating a Taxation System Responding to Changes in Economic and Social Structures" (Act No. 114 of 2011) and "Act on Special Measures for Securing the Financial Resources Necessary to Implement Measures for Reconstruction following the Great East Japan Earthquake" (Act No. 117 of 2011) were newly promulgated on 2 December 2011. These reform acts reduce the effective tax rate used for the calculation of deferred tax assets and liabilities from 40.69% to 38.01% and 35.64% for those temporary differences expected to reverse within the three fiscal years beginning on or after 1 April 2012 and for the fiscal years beginning on or after 1 April 2015, respectively. The Tax Reform also sets a ceiling on annual deductions for unused tax carry-forward losses to 80% of annual taxable income for the consolidated fiscal years beginning on or after 1 April 2012.

These changes lead to a decrease in net deferred tax assets of ¥2,265 million and an increase in income tax deferred of ¥2,260 million.

XVIII. BUSINESS COMBINATIONS

For the year ended 31 March 2012

Transaction under common control

Additional acquisition of stocks of SBI Net Systems Co., Ltd. (to becoming wholly owned subsidiary through a share exchange)

1. Overview of the transaction

(i) Name and business of the targeted company
Name of the targeted company: SBI Net Systems Co., Ltd.
Business nature: System development

(ii) Date of the business combination
1 February 2012

(iii) Details of legal form
SBI Net Systems Co., Ltd. will become a wholly owned subsidiary of the Company after the business combination through a stock exchange.

(iv) Company's name after business combination
No change occurred to the name of the company.

(v) Objective and outline of the transaction
After SBI Net Systems Co., Ltd. becomes a wholly owned subsidiary, the Group could highly improve the effectiveness and efficiency of its operation both domestically and overseas through integration of the subsidiary's know-how on system development. The share exchange was implemented as the business combination is believed to bring synergy in intensifying the Group's profitability and maximizing value of the whole group, so that all the shareholders, clients and business partners would benefit.

2. Applied accounting standard

The transaction was treated as a business combination under common control in accordance with the Accounting Standard for Business Divestitures (ASBJ Statement No. 21, 26 December 2008) and Guidance on Accounting Standard for Business Combination and Divestitures (ASBJ Guidance No. 10, 26 December 2008).

3. Additional acquisition of stocks of subsidiary

(i) Consideration and details

Consideration of acquisition	The Company's common shares	¥592 million
Direct acquisition cost	Advisory fee	¥ 2 million
Total consideration		¥594 million

(ii) Share exchange ratio according to stock types, its computation basis, granted stocks, and those valuations

Share exchange ratio	Type of shares: Common shares
The Company 1: SBI Net Systems 1.25	
Computation basis	The valuations were conducted by KPMG FAS Co., Ltd. on the Company's side and conducted by HIBIYA & Co. on SBI Net Systems Co., Ltd.'s side as independent sources for the share exchange. The share exchange ratio was determined based on the valuation reports from both parties.
Exchanged shares	149,330 shares (the Company allotted 74,621 shares of treasury stocks it owns and newly issued shares for the rest)

(iii) Amount of goodwill recognized, reason of its occurrence, and amortization method and period

Amount of goodwill recognized	¥424 million
Reason of occurrence	The Company recorded the difference between the consideration and decreasing amount of minority interests as goodwill.
Amortization method and period	Amortized over 20 years by using the straight-line method

Business transfer

Sale of Shares of SBI VeriTrans

(1) Summary of business transfer

(i) Name of the company to which the Company sold investments
Wheel, Inc. (Consolidated subsidiary of Digital Garage Inc.)

(ii) Business of company to which the Company sold investments
Settlement services, etc.
(iii) Date of business transfer
30 March 2012
(iv) Reason of business transfer
A main business segment of Digital Garage Inc. and its consolidated subsidiary (hereinafter referred to as “Digital Garage Group”) is the integration of advertising/promotion functions with settlement services. In order for Digital Garage Group to further expand this core business (settlement function), the Group realized that the best option was to make SBI VeriTrans Co., Ltd. (which has an expanding settlement service business both in Japan and the rest of Asia), one of its subsidiaries, thus the Group transferred all its interest in SBI VeriTrans Co., Ltd. to Digital Garage Group.
(v) Other matters including the legal structure of the business separation
Transfer of shares by cash as consideration

(2) Summary of accounting treatment

(i) Gains or losses on the business transfer
Gains on sales of investment securities is ¥8,618 million.
(ii) Assets and liabilities in relation to the business transfer are as follows:

	(millions of Yen)
Current assets	9,139
Non-current assets	970
Total assets	10,110
Current liabilities	7,225
Non-current liabilities	11
Total liabilities	7,237

(iii) Reportable segment including business separated:
Financial service business
(iv) The approximate estimated amount of gain and loss recorded in the consolidated statements of operations of the current fiscal year related to the transferred business are as follows:

Net Sales (millions of Yen)	7,069
Ordinary income (millions of Yen)	895

XIX. SEGMENT INFORMATION

1. Overview of reportable segments

Separate financial information of the Group’s components is available and reviewed regularly by the Board of Directors for the purposes of allocation of financial resources and performance evaluation.

The Group engages in a wide range of business activities, mainly the financial service business. Based on the similarities of economic characteristics of business or nature of services the “Asset Management Business,” “Brokerage and Investment Banking Business,” “Financial Services Business,” and “Housing and Real Estate Business” are determined as reportable segments.

The “Asset Management Business” primarily consists of fund management and investment in internet technology, biotechnology, environment energy and finance-related venture companies.

The “Brokerage and Investment Banking Business” primarily consists of financial businesses, such as trustee of securities trading, underwriting and offering for sale of IPO shares, offering for subscription or sale of stocks, foreign currency spot contracts, and other financial instrument trading businesses.

The “Financial Services Business” primarily consists of finance-related businesses, such as property and casualty insurance business, credit card business and the provision of information regarding financial products.

The “Housing and Real Estate Business” primarily consists of developing and trading of investment property, financing business related to the granting of mortgage loans, operating websites related to the provision of intermediate service, comparison and real estate appraisal service.

2. Measurement of reportable segment profits or losses and segment assets

The accounting treatment of reportable segments is the same as that adopted in preparation of the consolidated financial statements.

The segment income is based on the operating income. The inter-segment revenue and amounts of transferring to other accounts are based on market price.

3. Information about reportable segments

Year ended 31 March 2011	Reportable segment: Asset Management Business (millions of Yen)	Brokerage & Investment Banking Business (millions of Yen)	Financial Services Business (millions of Yen)	Housing and Real Estate Business (millions of Yen)	Sub-total (millions of Yen)	Others (Note) (millions of Yen)	Total (millions of Yen)

XXV. EVENTS AFTER THE REPORTING PERIOD

Stock split, adoption of share unit system and partial amendment to the articles of incorporation

At the Company's 14th business year's shareholders meeting held on 28 June 2012, the adoption of a share unit system and partial amendment to the articles of incorporation were resolved.

In addition, at the Board of Directors' meeting held on 26 April 2012, the implementation of a stock split was resolved subject to the above shareholder's approval on the partial amendment to the articles of incorporation.

1. The purpose of the stock split, adoption of a share unit system and the partial amendment to the articles of incorporation

Based on the requests from the Japanese Stock Exchanges Conference to define the trading unit at 100 or 1,000 shares, the Company determined to adopt a share unit system and prescribed the share unit as 100 shares.

Since the Tokyo Stock Exchange set the preferable range of investment at ¥50,000 or more and less than ¥500,000 in accordance with Article 445 of the Listing Rule, the Company determined to conduct a 10 for 1 stock split to meet the aforementioned range considering the recent stock price.

2. The outline of the stock split

The stock split will be conducted at the rate of 10 shares for each outstanding share based on the shareholders registered as at 30 September 2012.

3. The adoption of a share unit system

Share units will be prescribed as 100 shares.

The adoption of a share unit and stock split would result in holders of shares with less than a unit. The Company will establish a system to enable shareholders with less than one share to demand the Company to purchase their shares that are less than one unit or to sell the shares to make the shares into a unit effective from on or after 1 October 2012.

4. The effective date of the stock split and the adoption of the share unit

The effective date of the stock split and the adoption of the share unit will be on 1 October 2012.

If the above stock split was conducted at the beginning of the year ended 31 March 2011, the per share information for the year ended 31 March 2011 and 2012 would have been as follows:

	Year ended 31 March	
	2011 (Yen)	**2012 (Yen)**
Net assets per share	1,961.06	**1,848.92**
Net income per share	23.61	**14.56**
Diluted net income per share	22.57	**14.06**

XXVI. CONSOLIDATED SUPPLEMENTARY SCHEDULES

For the year ended 31 March 2012

1. Supplementary schedules of bonds payable

Company name	Description	Issuance date	Balance as at prior year end (millions of Yen)	Balance as at current year end (millions of Yen)	Interest rate (%)	Collateral	Redemption date
SBI Holdings, Inc.	Japanese yen straight bond (Note 2)	May 2010 to December 2011	70,000	60,000 (60,000)	1.66–1.90	None	May 2011 to December 2012
SBI Holdings, Inc.	No. 4 Unsecured straight bond	30 January 2012	—	30,000	2.16	None	30 January 2015
SBI Life Living Co., Ltd.	No. 1 Unsecured straight bond (Note 3)	30 December 2010	600	540 (60)	TIBOR +0.1	Bank guarantee	30 December 2020
Total			70,600	90,540 (60,060)			

Notes:

(1) Amounts in brackets represent redemption amounts within one year from the balance sheet date.

(2) Total amounts of straight bond in Japanese Yen issued based on the Euro medium-term note program are stated above.

(3) Collateral is provided for the bank guarantee.

(4) Annual maturities of long-term bonds payable including the current portion as at 31 March 2012 for the next five years are as follows:

Within one year (millions of Yen)	1 to 2 years (millions of Yen)	2 to 3 years (millions of Yen)	3 to 4 years (millions of Yen)	4 to 5 years (millions of Yen)
60,060	**60**	**30,060**	**60**	**60**

2. Supplementary schedules of loans payable and others

Description	Balance as at prior year end (millions of Yen)	Balance as at current year end (millions of Yen)	Average interest rate (%)	Repayment date
Short-term loans payable	97,164	103,915	1.18	—
Current portion of long-term loans payable	12,147	19,888	1.41	—
Current portion of lease obligation	2,114	1,799	—	—
Long-term loans payable (excluding current portion)	31,366	16,765	2.02	March 2013 to February 2017
Lease obligation (excluding current portion)	6,506	4,185	—	May 2013 to August 2017
Other interest bearing debt				
Borrowings on margin transactions	70,386	76,007	0.77	—
Total	219,685	222,562		

Notes:
(1) Average interest rates were calculated using the weighted-average interest rate based on year-end borrowing balances.
(2) Average interest rate on lease obligation is not stated since the part of lease obligation on the balance sheet includes interest portion of minimum lease payments.
(3) Annual maturities of long-term loans payable and lease obligation, excluding the current portion, as at 31 March 2012 for the next five years are as follows:

	1 to 2 years (millions of Yen)	2 to 3 years (millions of Yen)	3 to 4 years (millions of Yen)	4 to 5 years (millions of Yen)
Long-term loans payable	2,936	6,161	6,970	697
Lease obligation	1,784	1,447	812	137

3. Supplementary schedules of the asset retirement obligation

As the amounts of the asset retirement obligation as at 31 March 2011 and 2012 were less than 1% of total liabilities and net assets, the breakdown of the asset retirement obligation was omitted in accordance with Article 92–2 of the Consolidated Financial Statements Rule.
