SBI EVERSPIN Co., Ltd.

**SBI EVERSPIN Joins the Japan Cybercrime Control Center (JC3)  
as a Regular Member**

SBI EVERSPIN Co., Ltd. (Head office: Minato-ku, Tokyo; Representative Director: Jamyung Yoon; hereinafter the “Company”) hereby announces that it has joined the Japan Cybercrime Control Center (JC3) as a Regular Member.

The Company offers “Eversafe,” a solution that defense against hacker attacks by using the world’s first dynamic security technology, which activates a new security code every day, leaving no room for analysis or tampering, eliminating the risk of damage from unauthorized money transfers or information leakage in websites or apps. “Fake Finder,” another product that the Company offers is an anti-phishing solution that can detect malicious applications using a whitelist detection method. since 2022, the Company has been providing vulnerability assessment services for financial institutions and businesses in Japan.

Using the expertise that the Company has gained through continuous research on cutting-edge security technologies and years of security vulnerability assessments to protect its customers’ systems from the ever-evolving damage caused by unauthorized access, such as hacking. The Company will endeavor to realize a secure society where customers can confidently use digital environments and focus on their core business services.

The Japan Cybercrime Control Center (JC3) is a new framework among industry, academia, and government to achieve a preemptive and comprehensive response to threats. It includes accumulating and sharing experience in dealing with cyberspace threats collaborating with industry, academic research institutions, and law enforcement agencies together with more effective use of investigative authority by the police.

JC3 is a non-profit organization that seeks to identify, mitigate, and neutralize the major sources of cybercrime and other cyber threats in cyberspace by observing all of cyberspace from a bird’s-eye view through sharing of information and building collaborative relationships with relevant Japanese domestic and overseas organizations such as the U.S. NCFTA.
