SBI EVERSPIN Achieves ISMS Certification
(Latest Standards: ISO/IEC 27001:2022 + Amd 1:2024 / JIS Q 27001:2025)
～Strengthening the Delivery of Reliable Services
Through Information Security Based on International Standards～

SBI EVERSPIN Co., Ltd. (Headquarters: Minato-ku, Tokyo; Representative Director and President: Jamyung Yoon), a consolidated subsidiary of SBI Holdings, Inc. (Headquarters: Minato-ku, Tokyo; Representative Director, Chairman, President & CEO: Yoshitaka Kitao) , which provides AI-driven cybersecurity solutions, is pleased to announce that it obtained certification for its Information Security Management System (ISMS) in July 2025. The certification complies with the international standard *ISO/IEC 27001:2022 + Amd 1:2024* and the domestic standard *JIS Q 27001:2025*.

Background and Significance of ISMS Certification

The latest versions, *ISO/IEC 27001:2022 + Amd 1:2024* and *JIS Q 27001:2025*, issued following the 2022 revision and the subsequent standard amendments in 2024 and 2025, have strengthened measures to address advanced risk management in information security, as well as emerging technological trends such as the widespread adoption of cloud computing and artificial intelligence.

At SBI EVERSPIN, we place the highest priority on **trust** and **security** in delivering next-generation cybersecurity solutions powered by AI. This ISMS certification serves as a third-party validation that our continuous information asset management framework adheres to internationally recognized standards.

Future Initiatives

Through the continued operation and improvement of our ISMS, we strive to further strengthen our services in alignment with global security standards. In addition, we will bolster our compliance with industry-specific requirements, including the *13th edition of the FISC Security Guidelines* published by the Center for Financial Industry Information Systems (FISC), and the *Cybersecurity Guidelines* issued by Japan's Financial Services Agency.

Furthermore, we are committed to building and delivering robust security architectures and operational foundations in advanced technology domains such as **Generative AI**, **Zero Trust**, and **Cloud Security**, supporting our customers' safe and secure use of digital technologies.

ISMS Certification Overview

Certified Standards	ISO/IEC 27001:2022 + Amd 1:2024 / JIS Q 27001:2025	
Certification Scope	Planning, development, provision, and consulting of security software systems, including: ・ Planning, development, and delivery of cybersecurity software and systems ・ Cybersecurity assessments and consulting services ・ Service design and UX/UI design ・ Research and applied development of advanced technologies for endpoint security solutions	MSA MSA-IS-775 iSMS-AC ISMS ISR016
Certified Organization	SBI EVERSPIN Co., Ltd. Roppongi 1-6-1, Minato-ku, Tokyo, Japan	
Certification Body	Management System Assessment Center Co., Ltd. (ISR016)	
Certification Number	MSA-IS-775	
Certification Date	July 29, 2025	

About SBI EVERSPIN

SBI EVERSPIN is a technology company that develops and delivers **next-generation cybersecurity solutions powered by artificial intelligence**. As a member of the SBI Group, we protect the businesses and clients across various industries—including finance, infrastructure, and manufacturing—from evolving cyber threats.

By providing practical, reliable cybersecurity solutions in compliance with both domestic and international regulations and guidelines, we will continue to contribute to a **safe and secure society**.
